New Business

A. Public Accuracy Test

The Election Commission chose Precinct 1 AV as the test precinct. An explanation was provided pertaining to the logic testing ballot chart and how the test ballots were marked. The ballots were marked in accordance with the test procedures provided by the State Bureau of

Elections. The public accuracy test was conducted and the test ballots were tabulated. The voters cast for County Sheriff were off by one vote – showing 9 votes for the Democratic candidate instead of 8 votes as indicated on the test chart and marked ballots and on the preliminary test results. The marked test ballots were reviewed and no irregularities were found.

The test ballots were re-tabulated and the vote result was correct. The machine was zeroed out and another zero report was printed. The test ballots, public accuracy test results, and corresponding paperwork were placed under seal.
