

DUAL METER INSTALLATION PROCESS

1. Customer signs **Dual Meter Agreement**. Notarized. Signed by City, too.
2. Customer pays \$500 to the City. This covers the cost of the new meter, plumbing permit and inspection.
3. Building Departments issues a **plumbing permit** for the work which the homeowner/homeowner's plumber needs to do to prepare the pipes for installation of the second meter.
4. Plumber/owner calls for inspection.
5. When inspection is passed, the customer calls to schedule a public works service call to install the meter.
