Water main repair on hold in City of Northville

Northville ... The Great Lakes Water Authority (GLWA) Water has postponed a valve repair that was scheduled to take place at 12 a.m. Wednesday, Feb. 21, until further notice. That repair would have required a line shut-down for the entire City of Northville, which would have required a **boil water alert** for two days.

For more information, look at the [City's website](#), [Facebook](#) and [twitter](#) accounts. If Northville residents or restaurant owners have questions, please contact City of Northville at 248-349-1300 during office hours of 8 a.m. to 4:30 p.m. After hours, there will be a special recorded line at that same number with any important updates.
